TECHNICAL SKILLS

Languages: Python, C#, TypeScript, Java, Go, SQL

Frameworks: FastAPI, .NET, Node.js, Spring Boot, Gin

Tools: Git, Linux, Docker, Kubernetes, Azure DevOps, AWS, SQL Server, PostgreSQL, Redis, Kafka, Prometheus

EXPERIENCE

KPMG Ignition

Atlanta, GA

Software Engineer, Development - Tax Technology

April 2026 - Present

- Developed and deployed **5+ full-stack features** for Deal Connect application on Digital Gateway tax platform
- Implemented role-based access system with granular permissions spanning **40+** APIs and frontend workflows
- Built admin configuration tool supporting **7** user/client settings, eliminating need for manual database updates
- Engineered document upload & persistence functionality through **10+ SQL** schemas, stored procedures, and services
- Automated client onboarding through **service-layer** and **database** enhancements, reducing onboarding time by **50%**

iHerb

Irvine, CA

Software Engineer Intern

Jun 2025 - Sep 2025

- Migrated legacy **.NET** services using Upgrade Assistant, resolving **25+** compatibility, **LINQ**, & async-related issues
- Diagnosed & fixed **20+** build / runtime failures via **CI/CD** logs, enabling successful **API** deployment to **Kubernetes**
- Validated **15+ endpoints** via **Swagger** & **Kibana**, verifying behavior in **3** environments (**local, pipeline, deployed**)

Universal Audio (Sponsored Project)

Scotts Valley, CA

Software Engineer Intern

Jan 2025 - Jun 2025

- Engineered **Python desktop application** for a USB audio interface, implementing **13** real-time control features
- Implemented logic to translate user inputs into control messages, enabling communication across **4** audio channels
- Integrated audio mixing & effects features using DSP algorithms, enabling **<1 ms latency** when applying effects

PROJECTS

Bite Right | *TypeScript, HTML, CSS, NextJS, ClerkJS*

2024

- Collaborated with **Agile** team across **software development lifecycle** to develop **full-stack** app of > **50000** recipes
- Implemented & integrated **React** components with **REST API** endpoints, improving page responsiveness by **25%**

Doc Service | *Python, Flask, AWS EC2*

2024

- Established **backend microservice** with **Python** to auto-fill & render PDFs, cutting manual data entry time by **75%**
- Wrote **unit tests** for PDF filling functionality with **Python unittest**, increasing test coverage to **95%**

Rule Service | *Python, Flask, AWS EC2*

2024

- Created Rules Engine **microservice** for natural language rule creation, saving **12** hours/week in manual configuration
- Designed JSON-based rule evaluation system with quick lookup time, reducing rule processing time by **20%**

EDUCATION

Georgia Institute of Technology

Atlanta, GA

Master of Science in Computer Science - Artificial Intelligence

Expected Graduation: Dec 2028

University of California, Santa Cruz

Santa Cruz, CA

Bachelor of Science in Computer Science

Dec 2025
