EDUCATION

University of California, Santa Cruz

Santa Cruz, CA

Bachelor of Science in Computer Science

Dec 2025

Relevant Courses: Data Structures & Algorithms, Databases, Operating Systems, Analysis of Algorithms, Computer Architecture, Software Engineering, Software Design, Machine Learning

EXPERIENCE

iHerb

Irvine, CA

Software Engineer Intern

Jun 2025 - Sep 2025

- Migrated legacy **.NET** services using Upgrade Assistant, resolving **25+** compatibility, **LINQ**, & async-related issues
- Diagnosed & fixed **20+** build / runtime failures via **CI/CD** logs, enabling successful **API** deployment to **Kubernetes**
- Validated **10+ endpoints** via **Swagger** & **Kibana**, verifying behavior in **3** environments (**local, pipeline, deployed**)

Universal Audio (Sponsored Project)

Scotts Valley, CA

Software Engineer Intern

Jan 2025 - Jun 2025

- Engineered **Python desktop application** for a USB audio interface, implementing **13** real-time control features
- Implemented logic to translate user inputs into control messages, enabling communication across **4** audio channels
- Integrated audio mixing & effects features using DSP algorithms, enabling **<1 ms latency** when applying effects

Ushur

Santa Clara, CA

Software Engineer Intern

Jun 2024 - Nov 2024

- Developed **frontend** component library of **50+** customizable variations with **React**, cutting UI building time by **30%**
- Built components & documentation with **TypeScript**, **Tailwind**, & **Storybook.js**, accelerating integration by **15%**
- Delivered **UI** features by working **cross-functionally** with design team, securing **100%** accuracy to **UI/UX** blueprint

PROJECTS

Safe Deposit (safedeposit.onrender.com)

| *JavaScript, Node.js, Express.js, MongoDB Atlas, Render*

2025

- Created **web app** with **Node.js** & **Express.js**, providing secure file distribution & up to **1000** concurrent downloads
- Set up **CI/CD** workflow with **GitHub** & **Render** for auto-deploys, enabling updates within **1 minute** of every push

Bite Right | *TypeScript, HTML, CSS, NextJS, ClerkJS*

2024

- Collaborated with **Agile** team across **software development lifecycle** to develop **full-stack** app of > **50000** recipes
- Implemented & integrated **React** components with **REST API** endpoints, improving page responsiveness by **25%**

Doc Service | *Python, Flask, AWS EC2*

2023

- Established **backend microservice** with **Python** to auto-fill & render PDFs, cutting manual data entry time by **75%**
- Wrote **unit tests** for PDF filling functionality with **Python unittest**, increasing test coverage to **95%**

Rule Service | *Python, Flask, AWS EC2*

2023

- Created Rules Engine **microservice** for natural language rule creation, saving **12** hours/week in manual configuration
- Designed JSON-based rule evaluation system with quick lookup time, reducing rule processing time by **20%**

TECHNICAL SKILLS

Languages: Python, Go, TypeScript, JavaScript, Java, C++, C#, HTML/CSS, SQL

Frameworks: Node.js, Express.js, React, Flask, .NET, Next.js, Tailwind CSS, Cobra

Developer Tools: Git, Linux, Docker, Kubernetes, AWS, PostgreSQL, MongoDB, Visual Studio Code

Interests: Fintech Applications, Machine Learning, Web Development, Mobile Applications, Cloud Computing
